## CHEMICAL HAZARD COMMUNICATION PROGRAM TRAINING CERTIFICATION

In compliance with State Law, all volunteers must be trained in the use of any hazardous chemicals they handle. In general, volunteers do not handle dangerous chemicals; however, some common products such as detergents or glass cleaner, hand sanitizer and disinfectant wipes are considered hazardous. Volunteers do handle the above products and must be trained in their proper use. The training is as follows:

1. Detergents or glass cleaner: Do not drink. Do not spray directly onto skin or in eyes. If this accidentally happens, rinse with clear water.
2. Hand sanitizer: Do not swallow, do not place directly into eyes. If eye contact occurs, flush with large amounts of clean water and seek medical attention if signs/symptoms persist. If swallowed, do not induce vomiting unless instructed to do so by medical personnel, give two glasses of water and get medical attention if needed.
3. Disinfectant wipes: wear protective clothing as needed, avoid contact with eyes and skin. If skin irritation developed, call a physician. If eye contact occurs, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If you are ever asked to handle any product that you believe may be hazardous, please consult the **Material Safety Data Notebook** located in each department. It will contain safety sheets on all hazardous products used within that department.

## CODE RED

CODE RED is our fire code. You need to know the following:

For all CODE RED and CODE RED DRILLS - stay where you are and listen for further instructions. Remain calm and reassure patients/visitors. When in doubt, get help.

**DO NOT** open or block fire doors. They are designed to contain smoke and fire.

Know the location of the pull stations, fire extinguishers, telephones and exits for your area.

Designated staff will respond to CODE RED OR CODE RED DRILL. Volunteers do not respond to this (or any other) code. Staff is highly trained to handle emergencies of this nature. We need to stay out of their way. If you happen to be the first person to discover a fire, immediately pull the fire alarm and dial 1199 for further help.
